

800-171 Achieved. Simply. Efficiently.

Compliance without the Disruption

POWERFUL APP & EXPERT ADVISORY

Undergoing a NIST 800-171 compliance initiative shouldn't be a journey or a mountain climb that distracts staff from the core business. Rizkly was born out of industry experience and a passion to empower SMBs with a smart combination of software and cyber compliance expertise to achieve and sustain compliance with efficiency and speed. Rizkly offers:

- Assessment, education, CUI identification, boundary definition, ongoing PMO and consultation
- NIST 800-171 compliance through an app combined with dedicated expert cyber and compliance advisory
- Audit-ready documents (SSP, IRP, POAM) without having your compliance initiative turn into a full-time job
- Tasking, alerts, tracking, policies and a document library so you can demonstrate compliance with confidence

GUIDED SECURITY & COMPLIANCE

Rizkly helps you achieve and maintain 800-171 compliance at a lower cost and using fewer resources than traditional compliance solutions. You no longer have to choose between jeopardizing budget priorities to hire a consultant or going it alone on your security and compliance projects. Our Guided Security and Compliance service features a powerful application featuring policies, control completion, and dashboards combined with expert advisory to achieve 800-171 compliance and gain confidence that lets you grow the business further.

The screenshot displays the Rizkly web application interface. On the left is a navigation sidebar with the Rizkly logo and menu items: Home, Projects, Users, Documents, Alerts. The main content area is divided into several sections:

- Home:** A 'Project Status' dropdown for '2018 800-171 Pre-As...'. Below it is a bar chart showing control status: 2 Completed (orange), 1 Reviewed (blue), and 6 Not Completed (red).
- 800-171 Assessment : 1.1:** A detailed view of a control. It includes fields for Compliance Area Control ID (1.1), Category (1.ACCESS CONTROL), Description (1.1 Limit system access to authorized users, processes acting on behalf of authorized users, or devices (including other systems)), Control Type, Last Modified Date (Apr 23, 2019 - 3:32AM), and Due Date (1/1/1901). It also lists instructions, references, and company policy.
- Controls for Review This Month:** A table with columns for ID, Control Item, Control Owner, and Due Date. It shows 'No records found'.
- Compliance by Control Area:** A table showing compliance status for different control areas: Access Control Policy and Procedures (1 Open Item), 1 ACCESS CONTROL (1 Item Awaiting Review), and 5 IDENTIFICATION AND AUTHENTICATION (5 Open Items).

THE REALISTIC 800-171 OPTION FOR SMBs

Rizkly is the simple, cost-effective way to achieve 800-171A or 800-171B compliance when you want to avoid complex software, expensive consulting engagements or full-time staff.

Rizkly leads your company to 800-171 success with a powerful cloud app along with dedicated security and compliance experts. Rizkly provides you with a fast path to 800-171 compliance through:

- Initial assessment & strategy with 800-171 experts
- CUI identification and boundary definition
- 800-171 education & controls overview
- Ongoing advisory & progress reviews
- Project setup & management
- Policy & control statement customization
- SSP & POAM creation
- Quarterly CISO/Compliance meeting
